MISLEADING ESTIMATES.

Why Municipal Lighting Plants Gen-erally Cost More Than Expected. It is most unusual for a municipal lighting plant to be erected at a cost that comes anywhere near the estimate presented to the city officials. In some cases these officials are directly to blame for accepting the estimates of representatives of manufacturing companies, who are, of course, more anxious to make a sale than to protect the citizens from ultimate disappoint-When an electrical engineer is called upon for an estimate it might seem as though the council had done its full duty, but unfortunately, in some cases at least, the temptation to secure a percentage on the construc tion cost is great enough to overcome professional honor, and estimates are submitted which are absolutely inadequate The only remedy for this would seem to be to obtain an independent estimate from a consulting engineer who would have no further interest in the matter.

Perhaps, however, the most common cause for disappointment is due to the fact that engineers in estimating cost fail to take into consideration what ought to be well known by this time-that cities cannot, as a rule, construct plants at as low figures as private companies can. This is due partly to the inexperience of city officials, which is taken advantage of in many cases, and also to the fact that the large amount of red tape which seems to be a necessary feature of such contracts has to be allowed for by bidders. It is therefore perfectly possible that an estimate for a municipal plant may be exceeded by 30 per cent when it would be an adequate one if the construction were to be undertaken by a private company. This is a feature of munic ipal ownership which has not been heretofore given the consideration that

ANTI M. O. TIDE RISING.

Many Defeats in Many Places in the Last Few Months.

The rising of the tide of public resentment against municipal ownership is shown by the many defeats it has suffered during the past few months. Among those previously unrecorded in these pages are the following:

The voters of Canon City, Colo., declared against constructing municipal waterworks.

In Hot Springs, S. D., M. O. candidates for aldermen were defeated in every ward. The expenditure of \$50,000 to \$65,000

to develop electrical power was voted down in Shelburne, Ont. In Shullsburg, Wis., the vote was

nearly six to one against bonding the city for an electric light plant. The committee appointed by the town of Winchester, Mass., to investigate

the subject of municipal lighting reported as follows: "The committee is unanimously of

the opinion that the town should not at this time undertake to own or control any municipal lighting plant, nor should it, in the opinion of the committee, engage in the manufacture or dis tribution either of electricity or gas for municipal use or for the use of its inhabitants."

Galena Well Out of It.

The electric light plant of Galena, Ill., was installed in 1898 at a cost of \$18,000. It was sold the other day for \$13,000, but this price included a twenty-five year light, power and trac-tion franchise. Under the new contract the city will get practically twice e amount of street lighting that was furnished by the municipal plant at only 10 per cent greater cost. The sale met with the unanimous approval of the mayor and city council, as the plant had not been a success. One account of it says:

"Its management was changed as often as new political cliques gained power, and at times there was no street illumination at all. The commercia service was inferior."

Would Forfeit Vast Revenues. As long ago as 1902 the then 817 street railways paid to the various municipalities and states \$13,366,355 a year in taxes, according to our bureau STRAM FLOORING of census. Adding the taxes on street railway securities as property holders and the additions, the total is now fully \$25,000,000 a year. Municipal ownership would forfeit that great sum as state and municipal revenue.-Walter J. Ballard in Los Angeles Times.

LINGERING COLD.

Withstood Other Treatment But Quickly Cured by Chamberlain's Cough Remedy.

"Last winter I caught a very severe cold which lingered for weeks," says J. Urquhart, of Zephyr, Ontario. "My cough was very dry and harsh. The local dealer recommended Chamberlain's Cough Remedy and guaranteed it, so I gave it a trial. One small bottle of it cured me. I believe Chamberlain's Cough Remedy to be the best I have ever used." This remedy is for sale by Gibson & Timberman and W. F. Creighton & Co.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr Shoop tella mothers everywhere to give it without hesitation even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub. farnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resmous plant extract, t at helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sucr d Herb." Demond Dr. Shoop's, Take no other. Sold by E. S. Leadbeater & Sons.

Appendictits

Is due in a large measure to ahuse of the bowels, by employing drastic purgatives. To avoid all danger use only Dr. King's New Life Pills, the safe, gentle cleosers and invigorators. Guaranteed for headache, bibliousness, malaria and jaundice, at all drug stores. 25c.
